

A Fagerhult Group Company

Your partner for smart and sustainable lighting solutions

SCIENCE
BASED
TARGETS

DRIVING AMBITIOUS CORPORATE CLIMATE ACTION

THE NET
ZERO
STANDARD

APPROVED NET-ZERO TARGETS

Our mission

Our mission is to share our knowledge to deliver creative, circular lighting solutions that transform the health and prosperity of communities for generations.

Our values and mission unite us and provide us with a compass to navigate our strategic ambitions.

Curious?
creators

We actively seek knowledge, explore new ideas and challenge conventional thinking.

Committed
together

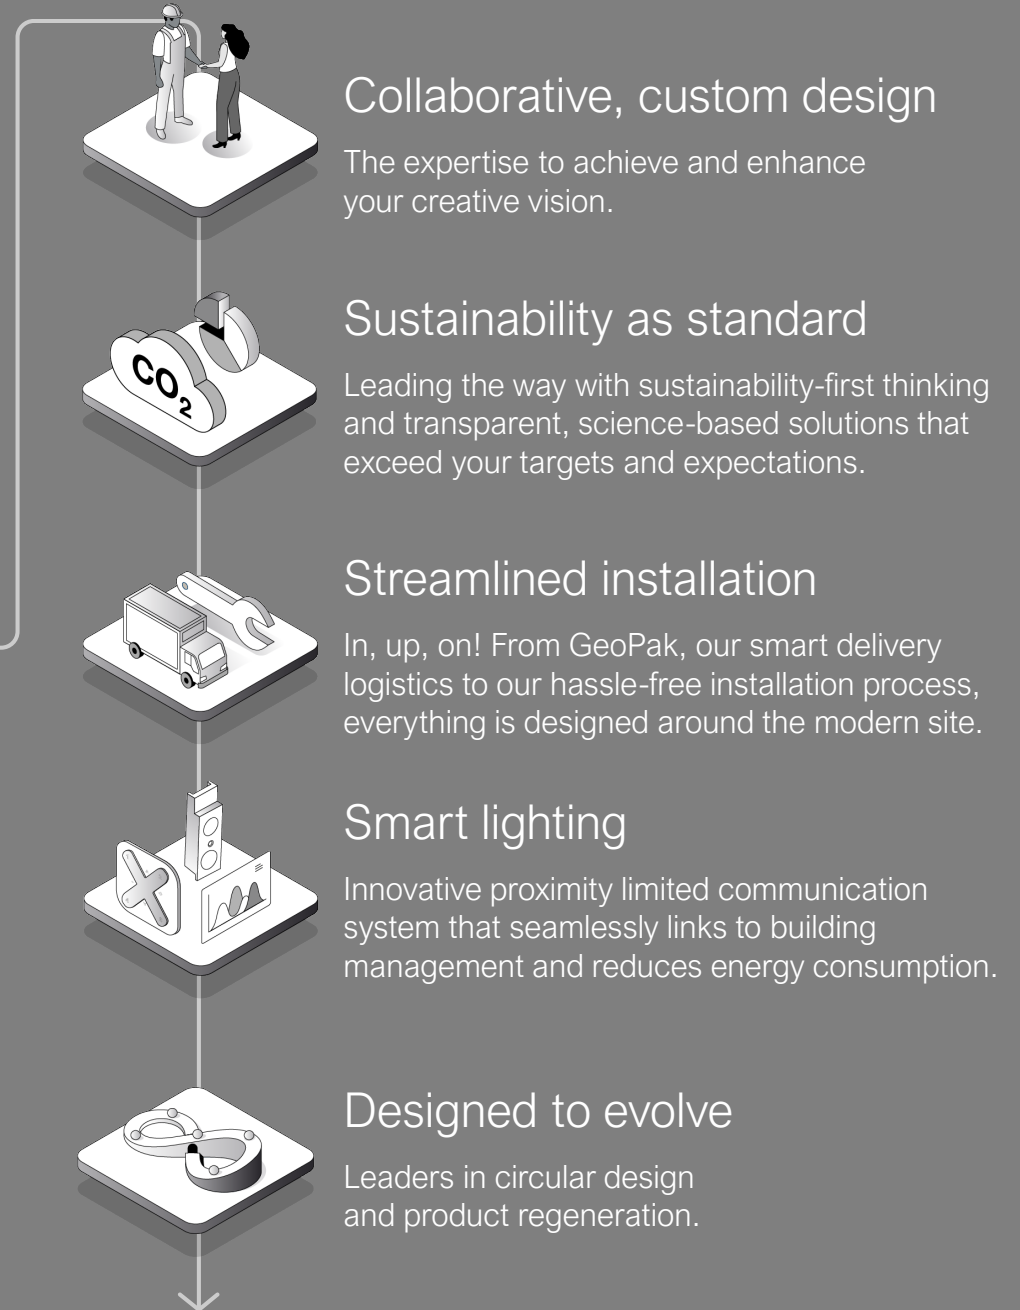

We are excited by the partnerships and relationships we form with our partners and colleagues.

Aim
higher

We encourage our people to grow and develop, continually challenging ourselves to exceed the expectations of our partners.

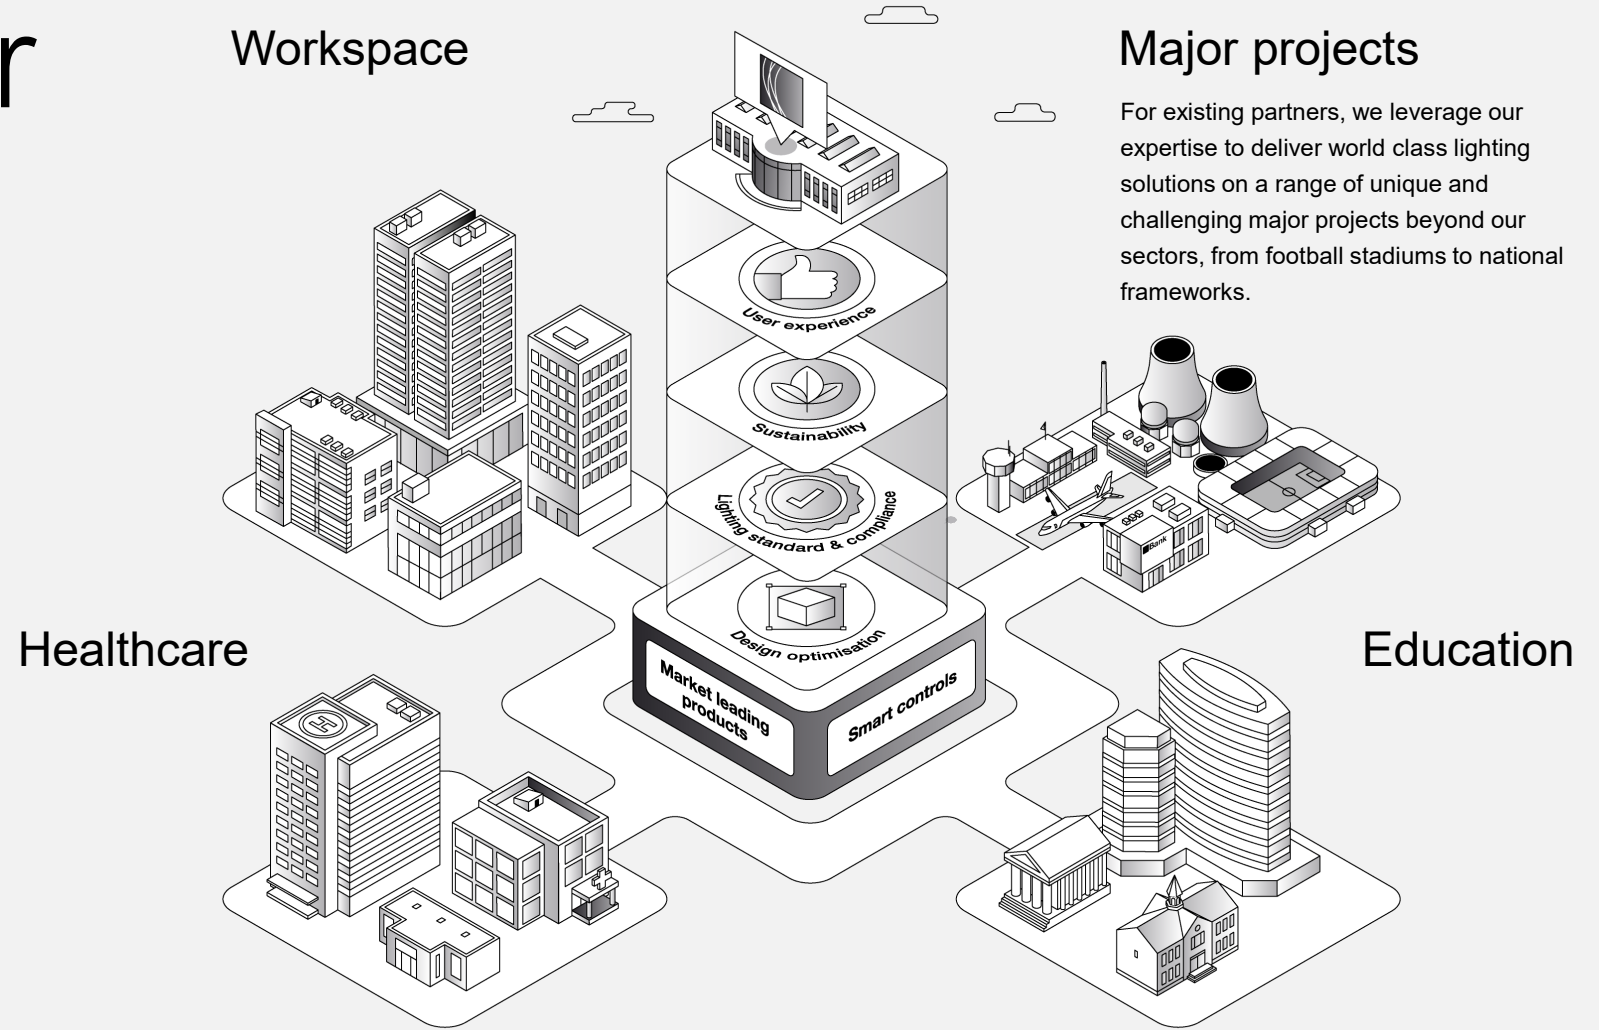

A circular solution. A circular relationship.

We've spent years getting to know our partners.
Our solutions are designed around your needs
at every stage of the project.

Deep sector expertise

Every sector brings unique challenges. It's why experience matters. Our deep sector knowledge makes us the go-to partner for health, education and workspace, while our major project business gives breadth to our expertise.

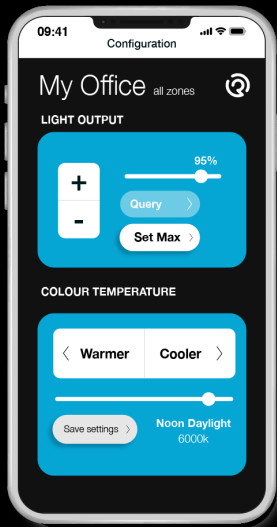

Four central principles govern every project we undertake

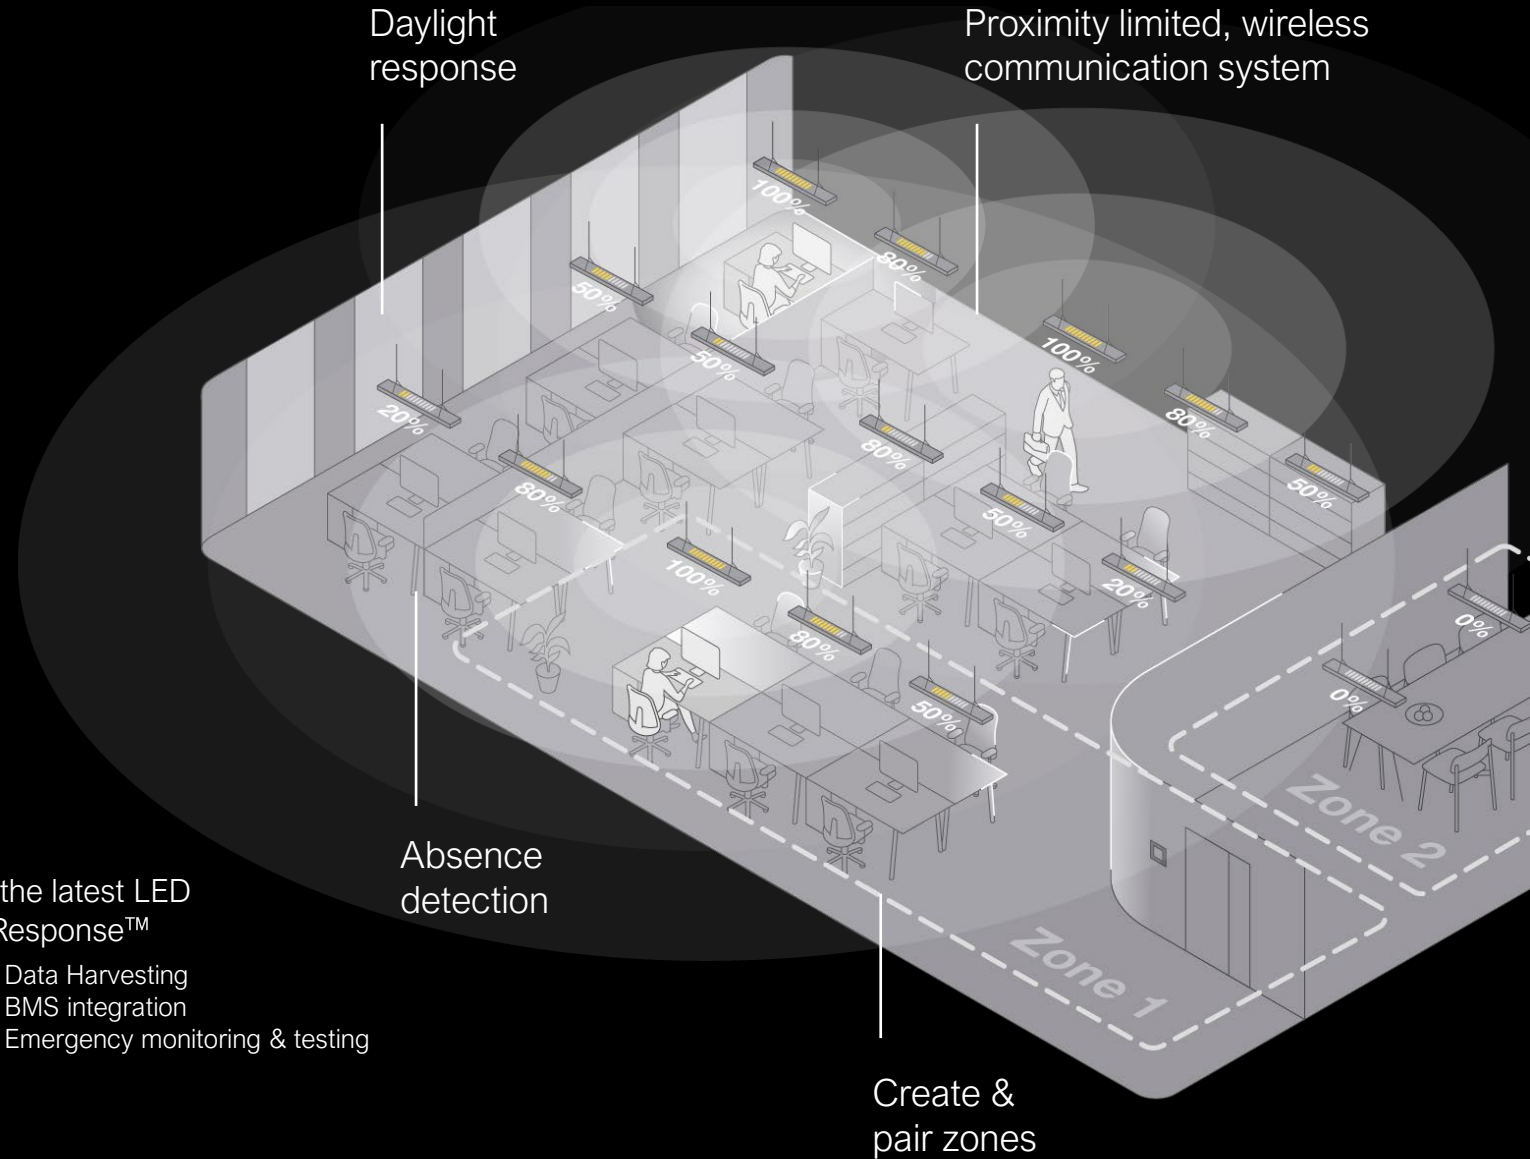

- User experience
- Sustainability
- Lighting standard & compliance
- Design optimisation

Smart lighting, made simple

Including our market leader, Organic Response™

- ✓ Zero commissioning
- 👤 Enhanced user experience
- ⚡ Up to 90% energy saving by using the latest LED technology together with Organic Response™
- ☁️ Cloud based connected solution
 - ▢ Data Harvesting
 - ▢ BMS integration
 - ▢ Emergency monitoring & testing
- 📱 Easy-to-use app

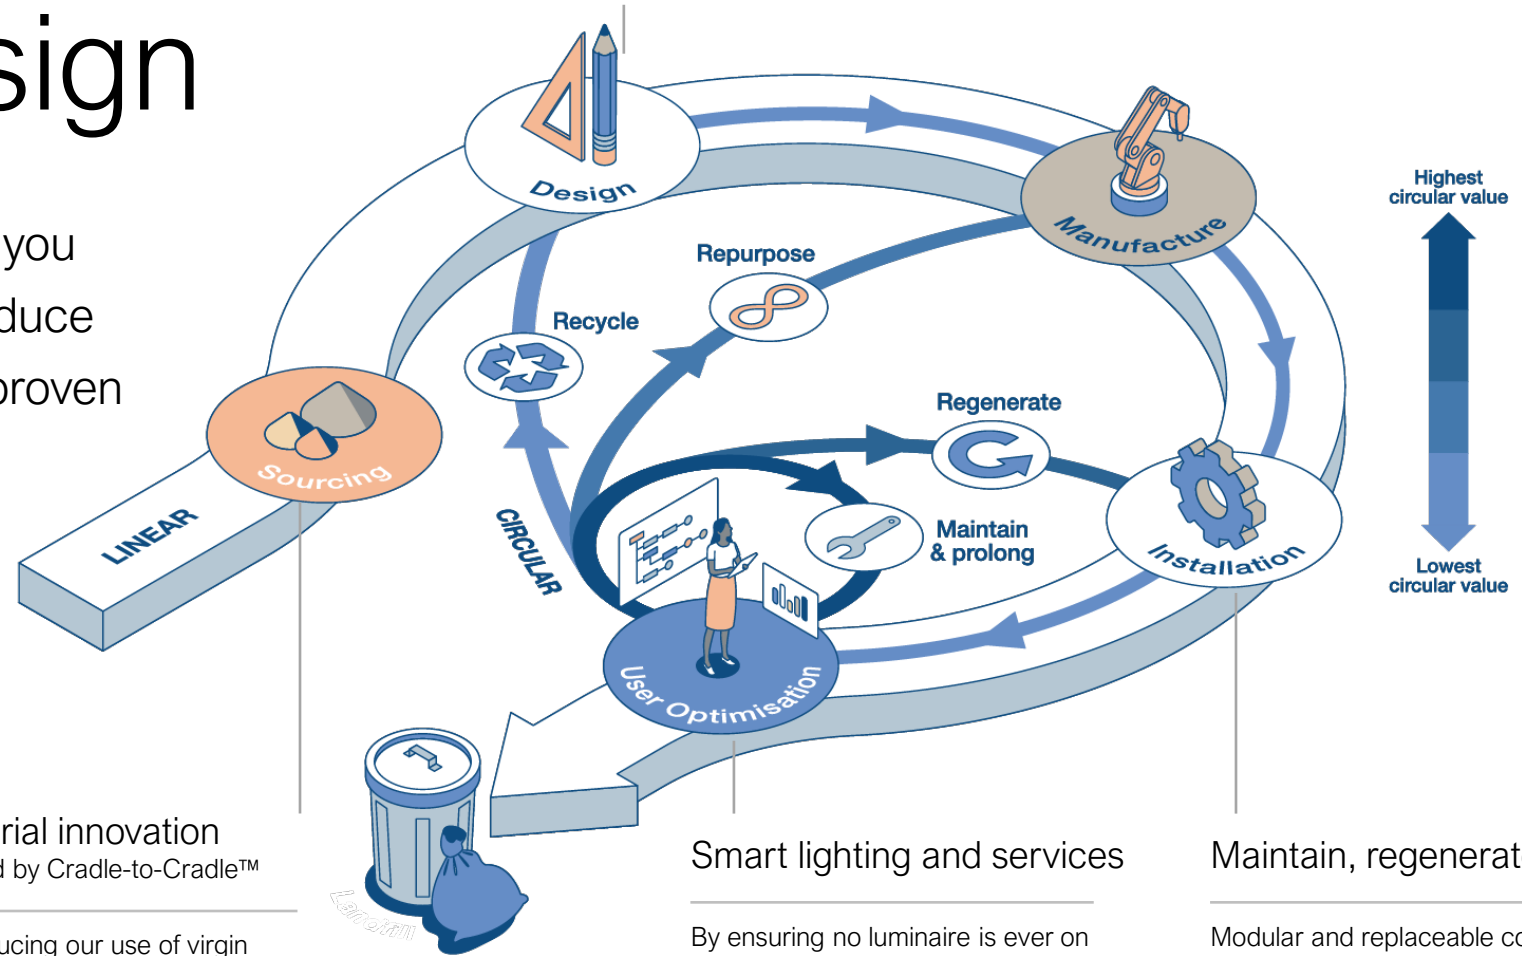

Sustainable, circular design

New build or retrofit, wherever you are on your journey, we can reduce your impact with scientifically proven circular solutions.

Leading products, leading design

- Highly efficient luminaires = up to 50% energy reduction
- Optimised lighting design = up to a further 20% energy reduction

Material innovation Verified by Cradle-to-Cradle™

- Reducing our use of virgin materials by 80% by 2030.
- Reducing embodied carbon

Smart lighting and services

By ensuring no luminaire is ever on when it doesn't need to be, we help to reduce energy by a further 30%.

Maintain, regenerate, recycle

Modular and replaceable components prolongs life and enables regeneration and maximises end of life recyclability

Retrofit

Reduce waste, decarbonise your space

Regenerate what you can and replace only what you need to. Our holistic approach to the space, including emergency systems and smart lighting, our expertise in lighting compliance, carbon management and energy reduction, makes us the perfect partner for your retrofit project.

Circular

Smart lighting

Full compliance

New Build

A solution and a partnership that evolves

Combining a circular mindset with our expertise in lighting compliance, carbon management and energy reduction, we will partner with you on the design, maintenance, regeneration and eventual recovery of the lighting solution in your building.

Circular

Smart lighting

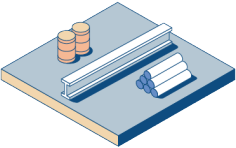

Full compliance

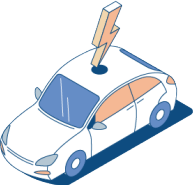

We've had our net-zero targets approved by SBTi

This validation is something few have achieved. It proves our commitment to ambitious emission reductions for our operations and our products, and that we have a science-based methodology to achieve those targets.

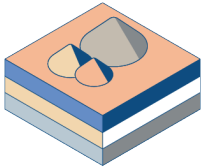

Near-term

70% reduction of scope 1 and 2 emissions by 2030

Near-term

30% reduction of scope 3 emissions by 2030

Long-term

Achieving **science-based net-zero** target by 2045

We also help our customers understand the carbon impact of their building – including carbon embedded in supply chain processes – through Environmental Product Declarations (EPDs) and CIBSE TM65

Social value

We believe in making a difference

...in our community

From restoring peatlands with the Wildlife Trust to refitting the facilities of our local mental health charity, Mind. We're proud to be a force for good in our community.

...for local talent
